INTRODUCTION

Tamatea Intermediate school's computer network, Internet access facilities, computers and other school ICT equipment/devices bring great benefits to the teaching and learning programmes at Tamatea Intermediate, and to the effective operation of the school.

Our school has rigorous cybersafety practices in place, which include cybersafety use agreements for all school staff and students.

The overall goal of the school in this matter is to create and maintain a cybersafety culture which is in keeping with the values of the school, and legislative and professional obligations. This use agreement includes information about your obligations, responsibilities, and the nature of possible consequences associated with cybersafety breaches which undermine the safety of the school environment.

All students will be issued with a use agreement and once signed consent has been returned to school, students will be able to use the school ICT equipment/devices.

The school's computer network, Internet access facilities, computers and other school ICT equipment/devices are for educational purposes appropriate to the school environment. This applies whether the ICT equipment is owned or leased either partially or wholly by the school, and used on or off the school site.
