

Learning for the future in a supportive environment

# Mathletics 2018

5 July 2018

## HAVE A HAPPY & SAFE HOLIDAY!!

Congratulations to our Year 7 and Year 8 Mathletics teams who represented us at the annual Mathletics Competition last week at Hastings Intermediate. Our Year 8 team came home with a silver medal for their second overall placing - Tino Pai!!! Many thanks to Mr Cooper and Mrs Morrison for organising and supporting our teams.

A BIG THANK YOU to Lisa Burn from Tremains real estate who has recently donated \$500 to our school through the "Team up" project with Tremains. The donation is much appreciated and will be put to good use. If you know of anyone buying a house with Tremains be sure to ask them to nominate Tamatea Intermediate for their donation!

## Merit Awards

Congratulations to the following Merit Award recipients for Term Two:

**JUST DANCE:** This was one of the highlights of my time at Tamatea Intermediate. It was an amazing experience and I think it's a great skill to be able to perform in front of an audience. It is also a fantastic opportunity to express our feelings in dance form. Our dance crew really enjoyed representing our school at Just Dance and I love that our school incorporates dance as part of our school's extracurricular activities. The highlights of the day and night were the rehearsal and seeing other schools perform and then the competition itself on Friday night where we performed in front of judges and families from other Hawke's Bay schools.

**By Georgia Brown**

Many thanks to teacher Valerie McLeod for her support and hard work making this possible for our students. And also to Vanessa Brown our parent helper.

**MATHEMATICAL MIND MOVER:**

We have been learning about financial literacy at school and this has inspired Bob to start his own small business selling shoes at the local market. They don't sell well at first

so he puts them on sale. For the sale he sells his shoes for \$20 a pair, although he has bought them for \$30 a pair.

One day, he is thrilled when a customer buys one pair of shoes. Bob gives him change for what he thinks is a \$50 note. Later he realises that the customer gave him a \$20 note, not a \$50 as he had thought.

How much money did Bob lose altogether on that pair of shoes?

*Remember to include your name, room number and working out on your entry form. Good luck.*

**FREE PUBLIC LECTURE MacDiarmid Science - to Industry and Beyond! From the lab to the marketplace.**

MacDiarmid researchers & alumni talk about their pathways from science to industry. Thursday 9<sup>th</sup> August Havelock North Function Centre, 30 Te Mata Road, 6pm.
